

DUOBLOCK

Duoblock is a multi-purpose chair, completely made of plastic. Its specialty is the structure consisting of two pieces, the seat with the front legs and the back with the rear legs; each piece produced as an injection moulding part. Produced in different colours, we created an interesting colour duet for each chair.

Martin Ballendat

Martin Ballendat is an internationally successful designer for more than 30 years. Born in Bochum in 1958 he studied Design at the Folkwangschule in Essen. After 3 years as an employee for the company Sedus at the border to Switzerland he took over the design- and development department of the Austrian company Wiesner Hager 1986 and shaped their design for more than 10 years. In 1995 he founded his own studio in Upper Austria and later a second one in Germany. Meanwhile Design Ballendat is a company with 16 employees and is working for well-known brands in more than 14 countries (Germany, Austria, Switzerland, Italy, Netherlands, Japan, Thailand, USA, Korea, Egypt, Poland, Turkey, France and the UK). He achieved more than 100 design prizes and other awards, among them 30xRed Dot, 2xBest of the Best, German Design Award in Gold, IF-Award Hannover, Best of Neocon Chicago Gold and Silver, 2x Best of the Best Interior-Innovations-Award , Focus LGA Stuttgart in Gold and Silver, Design Plus Award, Good Design Award Athenaeum, Materialica Award, IDEX Gold Award Canada, National Award Saarland, Josef Binder Award in Gold, National Award Austria ; prizes in Belgium, Netherlands, Japan, China, Hungary and many more.
